

Charley Chesnutt, HQ, and Lynn Martin, IWR

- ◆ Lynn Martin: How can we better coordinate within the Corps, and transfer knowledge outside the Corps?
 - Suggestions -- monthly or quarterly conference calls, articles in *Planning Ahead* or other newsletters
- ◆ Charley Chesnutt:
 - To plan for RSM, we should envision what we want our watershed systems to look like in 5-10 yrs.
 - Engage other groups in RSM, e.g., The Nature Conservancy (TNC)
 - To implement RSM in new districts, we can review what demos have done and apply to the new situation
 - RSM is essentially “the right thing to do” – Van Winkle, and we have permission to “just do it” (Gen Flowers).
